On receiving the award, Bent said “2017 was a watershed year for WCT as we doubled passenger throughput, taking 85% of the Hong Kong market, that is now nearly five times the size of the market when the terminal opened in 2013. We take equal pride in the fact that we reduced carbon output per passenger by 52%, and halved cruise passenger slip-and-trip cases in a year when throughput doubled. WCT is honored to receive the CILT Service Excellence Award and will continue to strive to keep Hong Kong at the forefront of transport and logistics.”

The biennial CILT SME Service Excellence Award evaluates how transport and logistics companies perform across a number of metrics, including customer satisfaction, environmental stewardship, infrastructure, innovation, operational effectiveness, quality management, and risk management and control. Winners are determined by an esteemed 5 member judging panel of CILTHK council representatives and industry experts. It is widely considered the most prestigious honor in the Hong Kong transport and logistics industries.
